APPLICATIONS

- . Vinyl
- . Vinyl composite
- . Rubber tiles and resilient floors

DILUTION RATE

- . Bucket 1:20
- . Autoscrubber 1:40

This floor finish restorer cleans and restores gloss in one simple operation. Whether applied with an automatic scrubber or the damp mopping method, the product leaves a thin coating that can be burnished to a «wet look» shine. This ecological product removes scuffs and black heel marks restoring the original depth of gloss to finish applied to vinyl, vinyl composites, rubber tiles and other types of resilient floors. This floor finish restorer is a logical choice for health and safety and is preferable for the environment.

SPECIFICATIONS

Color	Colourless
Format(s)	4 x 4L
Odour/perfume/fragrance	Light detergent
pH	Neutral
VOC	21.5-23 %
