SPREAD THE WORD, NOT THE GERMS!

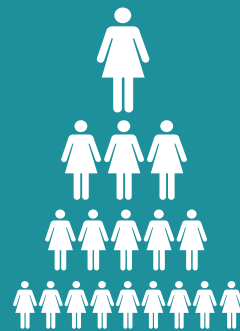

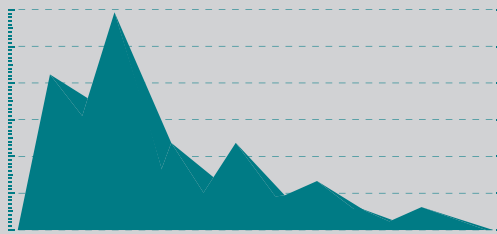

Influenza affects
10% to 35%
of Canadian population.

Influenza (or flu) is a common
respiratory illness affecting
millions of Canadians each year.

Flu Season usually runs from
November to April

An infected person
can be contagious a
day prior to his first
symptoms.

An infected person can spread the virus
during **5 to 10 days**. Kids may be
contagious **more than 10 days**.

2000 to 8000
deaths every year
